

Opportunity to build a .Net career within a public company

VB.NET WEB & APPLICATION ANALYST PROGRAMMERS

Stratatel Limited is Australia's leading provider of web based asset and expense management solutions and is seeking to appoint dynamic and motivated .Net & SQL Server Analyst/Programmers of varying skills and experience.

These appointments will add to Stratatel's existing development division in our West Perth office.

The successful applicants will be responsible for coding and testing major projects whilst keeping accurate documentation throughout to deliver world class, market leading products and services.

Do you possess:

- Expertise and experience in MS SQL Server
- Web and WinForm application development experience

Does your skill set include:

- ASP.Net
- VB.Net
- OOP
- SQL Server
- Database design

Are you highly motivated and able to work in a small team environment?

If this is you then send your resume and a covering letter to admin@stratatel.com.au

Australian residents only need apply.

A salary package will be offered commensurate to experience.
